ANIMAL NAME: ROSIE

SEX: SPAYED FEMALE

BREED: PIT BULL

D.O.B.: 12/18/2004

COLOR: DAPPLE / WHITE

MEMO:

Rosie is a very calm and friendly companion. She has had some training as she follows hand signals to sit, lay down, stay and shake hands. Rosie is also crate trained. She gets along with other dogs and does not show any fear or flood aggression. In the past, she was allowed to sleep on the bed of her master and loves to ride in cars. Someone had the points of her teeth flattened. She has a cherry eye and that will be corrected in the near future. She is about 9 years old and needs a home for her remaining years. Rosie is spayed and micro chipped.

12-27-13 neutered male and came in with another neutered male housed together approx 4-5 years old. Walks well on leash, ok with mouthparts, tail and feet. May be potty trained. Did not want to potty in his pen but when we let out he peed for about 15 minutes straight. Walked by all kinds of dogs in kennels and had no interest nor did he engage in barking back etc. dv

1-2-14 no flood aggression in fact shares with another male dog with mouthparts, feet, tail. He lives with an older adult neutered male and I introduced him to Gracie was ok with her. dv
