Applicant Name _____
 Address _____
 City _____ Zip code _____
 Phone _____

Reduction applies to:

- A. The first 1,000 residential single family home permits issued citywide for those builders who comply with terms of the program. The first 500 units of residential multi-family permits issued citywide for those builders who comply with terms of the program.
- B. Only units within the existing City Limits as described in the 2008 General Plan Settlement Agreement shall be eligible for the SESP program.
- C. Participation in the program is contingent on at least 50% of the workforce on a permit residing within Stockton.
- D. Once an applicant has been issued a residential building permit, the applicant must make a quarterly report to the City. The report will identify the total number of workers employed on the project and the number of those employees who reside within the City of Stockton.
- E. Projects participating in this program shall work with Building Industry Association to coordinate hiring of disadvantaged Stockton residents to appropriate positions matching skills and experience to job requirements and staffing needs.
- F. A monthly report must be submitted to the City identifying the total number of lots in their project, the number of permits issued, the number of homes under construction and the number of homes with a final permit.
- G. An applicant must start construction within 6 months of issuance unless an extension, authorized by state law and local ordinance is approved.

- H. A builder may receive no more than 20 building permits under the SESP program, at any given time for each final map, or 40 citywide for builders involved in more than one subdivision. The builder must start and receive a first inspection for each permit within 6 months of permit issuance unless an extension, authorized by state law and local ordinance is approved. Permits in SB 535 disadvantaged areas are exempt from this paragraph.

I certify under penalty of perjury of the laws of California that I have read the foregoing statement of facts and know its contents, and that it is true and correct. Furthermore, I acknowledge, in the event the SESP program expires, or the numerical count of 1,000 single family residential unit permits and 500 multi-family residential unit permits is reached, or a developer chooses to not participate in the SESP program, or a developer is no longer eligible to participate in the program due to noncompliance with the local hire requirement of the SESP program, the City will require payment of fees in the full, unabated amount.
