

Occupation: Minister/Businessman

My education and qualifications are: I bring a broad skill set and keen experience to serve as a member of the Stockton City Council. Being a life long Stockton resident I have been active in public service for more than 30 years. My service includes being a law enforcement chaplain, a non-profit executive, a Stockton City Planning Commissioner, and chairman of citizen oversight of public funds that hire both police and fire.

My priorities as your Councilman will be public safety, transparency, and accountability. I advocate that city hall needs to be more responsive to the residents of Stockton. More Police and keeping the ones that we have is a must. I champion for more and better access to your local government. Trust is important in government. I will advance that issue. As a Councilman I am your servant that will be available to you.

I know the neighborhoods of Stockton. My wife and I have raised our two children here. Stockton is a great city. Yes, we have challenges like every city, but it is possible to overcome them. I will be that champion of the possible.

A handwritten signature in blue ink that reads "Dwight Williams".
